

ESCORT ACCESSORIES Intelligent ChartReader

Version:

Portable printer to download data in list or graph mode

Product Code:

EA-CR

The Escort Intelligent ChartReader allows download and printout of logged readings without use of a computer. Printout can be either in a list of out of specification readings or a graph. With the 1MB memory, multiple sets of downloaded logged readings can be stored in the Chartreader's non-volatile memory for later transfer to PC.

Accessories

Item	Product Code	Description
Interface	JA-CHR-INT-E	PC interface cable for programming and data download
